love  
of horses

## Rampion

### Special features of Rampion:

- ✓ 80% African rampion which was carefully pelleted to ensure an optimal intake and effect
- ✓ As a diet-related support for problems of the musculoskeletal system
- ✓ Also ideally suited for old horses

### A support for problems with the musculoskeletal system

Rampion is a tested and proven natural substance that reliably supports horses problems of the musculoskeletal system. It is also ideally suited for senior horses. It is carefully pelleted to ensure an optimal intake. With 80% African rampion.

*Please note the national and international doping regulations.*

*According to the FN (ADMR January 2013) this product has a waiting period of 2 days.*

Tipp:

For chronic problems of the musculoskeletal system we recommend adding special "joint-nutrients" for 3 months at least once a year. Our products Arthro-Plus or Gelenk-Aktiv 20 are especially suited for this therapy.

#### **Feeding recommendations:**

Large horses: 20 – 30g daily

Ponys and small horses: 10 - 15 g daily

Please do not feed to pregnant mares

### Ideally suited:

- ✓ As a supplement for acute problems of joints, cartilage, ligaments and/or tendons
